FOR IMMEDIATE RELEASE

AJES RECEIVES RESEARCH AND DEVELOPMENT AWARD

Stonybrook, New York (USA), May 18, 2017 – AJES LifeSciences, LLC is pleased to announce that it received funding under the Applied Research and Development (ARAD) program.

The funding approval is AJES's first corporate sponsored research and testing agreement with Center for Biotechnology (CFB), AJES continues to build the momentum for the aggressive growth AJES is experiencing. Separately, this year, AJES closed research agreements for pre-clinical testing with several fast growing pharmaceutical companies based in greater New York area and is currently negotiating to acquire several other contracts.

AJES LifeSciences LLC, headquartered in Stony Brook, NY, is a USA-based firm that provides integrated R&D support in all the key areas of Pharmaceutical development. We offer proprietary orthotopic and metastatic tumor models. Our services include, whole body animal imaging, small animal ultra sound MRI, CT scan and other advanced technologies. We provide a complete array of research services as required for Investigational New Drug Applications (IND).
